## ABOUT THE CONFERENCE

The rapid advancements in Artificial Intelligence (AI) are transforming every aspect of modern society, and education is no exception. Recognizing the urgent need for reform and

innovation, the International Conference on Educational Reforms in the Era of Artificial Intelligence (ICERAI - 2025) aims to provide a global platform for educators, researchers, policy makers and industry experts to explore the evolving role of AI in education.

This two-day conference will delve into cutting-edge themes such as AI-driven personalized learning, adaptive assessments, ethical considerations in AI education tools, and the integration of AI technologies into curriculum design. Discussions will focus on how AI can empower teachers, enhance student engagement, and create equitable learning opportunities for all. ICERAI - 2025 will feature keynote speeches by global thought leaders, panel discussions, and peer-to-peer interaction to foster collaboration and innovation. We invite participation of leading academicians, research scholars and students to present their research findings, share best practices, and propose actionable strategies for leveraging AI to meet the dynamic demands of 21st-century education. Join us at ICERAI - 2025 to redefine educational paradigms and drive impactful reforms and to engage in meaningful dialogue and contribute to shaping the future of education in the age of Artificial Intelligence.

## OBJECTIVES OF THE CONFERENCE

- To explore the need for reforms in education amidst technological advancements.
- To examine the role of AI as a catalyst for change in education.
- To explore curriculum changes to include critical thinking and AI literacy.
- To discuss strategies for modernizing education systems globally in the light of AI.
- To identify key areas for transformation to meet 21st-century needs.
- To promote AI-driven innovative teaching practices.
- To address ethical and privacy issues in AI.
- To integrate AI into future-ready curricula.
- To build digital literacy for AI-driven learning.
- To evaluate governance and policymaking in driving educational change.
- To highlight cross-disciplinary collaboration for effective implementation.
- To envision future education systems influenced by thoughtful reforms.
